

12-15-17

The lakes are a big part of my life, having lived on Spear road in 1935. Then during the years - Round Lake, Shriner Lake (Base Rd.) for several years. I think my husband married me because of the good fishing on Shriner. After living in different parts of the country due to the military service of twenty years plus a career at Bethesda Naval Hospital for another seventeen - we returned to Indiana. In 1990 we purchased our home on Pressler Rd. and Little Crooked Lake - my dream. I no longer live there, but

my heart is still at the lake. People do not realize what a blessing God has given to us who live in this area.

Lakes cannot be replaced! They are not a throw-away item, they are to be guarded and preserved for future generations.

(Sorry I got carried away, but I get furious when the lakes are endangered.)

Thank you
Betty Grable
